

## COVID-19 Crisis Response: RCTA to begin delivering groceries and prescriptions

Effective Immediately: Amid the COVID-19 crisis, RCTA will be offering free grocery/prescription pick up and porch delivery for Roscommon county residents. Current participating stores are listed below. Other stores are working on a system and RCTA is able to work with any stores that may want to start this service for their shoppers.

To use this service; call your store of choice, give them your shopping list, arrange payment over the phone and leave your address. When your order is complete your store will call RCTA for transportation of your groceries. If you would like to call RCTA's dispatch to notify us as well you are welcome to do so.

If any passengers or stores have questions, please contact RCTA's dispatch at 366-5309. Using this service will support social distancing as well as reduce the exposure or risk to our passengers, drivers and all those that are working hard to supply this community with necessary supplies of food and/or prescriptions.
